Eye View Smart (EVS) Intelligent NVR Software

Compatible With:

- IP Cameras
- Analog Cameras
- HD-Coaxinator
- Thousands of Popular Cameras

- Up to 64 Camera Capacity
- Smart Phone Ready

HD-COAXINATOR™

Long Distance High Definition Video Over Coaxial Cable

Three Stocking Locations

- **West Chester, PA**
- **St. Peters, MO**
- **Las Vegas, NV**

Stand-Alone and PC Based Network Video Recorders

Offer Valid Until 12/31/15 or While Supplies Last

Distributed By: **NACE** (800) 688-9282 Fax: (800) 230-1793
email: sales@securitytronix.com web: www.securitytronix.com www.nace.tv

Features:

- 7 inch LCD touch screen 1024x600
- ONVIF IP camera test
- Test H.264/MPEG4/MJPEG IP cameras
- Built in Wi-Fi can receive images from wireless cameras as well as ONVIF and customized IP cameras
- HDMI signal output, supports 1080p
- Analog camera image display, auto adapts and display NTSC or PAL video formats
- Supports more than 30 protocols such as PELCO-P, PELCO-D, SAMSUNG etc
- Video image magnification enables detailed viewing
- Snapshot and save images as JPG files in an SD card, video record and playback
- LED Lamp, easy to operate at night
- Removable micro SD card
- LCD screen with brightness/contrast/color saturation adjustment
- PoE voltage test
- Audio input and output test
- DC12V 2A output to power cameras
- PoE power output, supplies temporary power for PoE cameras
- Supports RS232/RS485, Rate 600 - 115,200bps adjustable
- Enhanced Color bar generator, video generator, eight-system switchable, transmit/receive eight-system colorful images
- PEAK video signal level, SYNC signal level, Color burst chroma level measurement & test video signal attenuation
- Cable tracing by sending an audio signal, enables the blue cable tracer tester to find the connected cable bundles
- Ping test for testing connected IP cameras or other network equipment's Ethernet port function and to determine if the IP address is correct
- Quick search for the connected IP camera or other network device's IP address
- Cable test, Test LAN cable, telephone cable or UTP cable, cable type and the sequence of wires will be displayed
- PTZ protocol analysis, control protocol command displays to check RS485 transmission
- PTZ control, Pan/tilts the P/T unit, zooms lens in and out, adjusts the focus, aperture and sets preset positions
- 7.4V 48.1Wh Battery energy display, Lithium Ion Polymer Battery can last 16 hours of normal use after charging for 8 hours
- 2 Year Limited Warranty

Description:

The ST-IP-TEST 7 inch touch screen IP camera tester is designed for maintenance and installation of both IP cameras and analog cameras as well as other security equipment. It's 1024 x 600 resolution enables it to display images from network HD cameras and analog cameras in top quality. The unit supports both ONVIF PTZ and analog PTZ control. A combination of touch screen and push buttons make the IP camera tester very user friendly. In addition the tester is also a great tool for Ethernet networks and cabling systems. It can test PoE voltage and is capable of IP address searching. It can diagnose the location of a coaxial cable or network cable's short circuit and open circuit.

Through audio signal generation the blue cable tracer tester can find connected cables from unorganized or unlabeled cable bundles and includes the ability to test LAN cable or telephone cable types while verifying the sequence of the individual conductors. Other functions include 24W PoE power supply, LED Lamp and DC 12V 2A power output. The meters portability, user-friendly design and multi-function capability make it an essential tool for installers and technicians, greatly improving work efficiency and simplifying installations and system maintenance.

 16 Ch Tri-Brid **\$359.00**

High Definition Digital Video Recorder for HD Over Coax

SecurityTronix is thrilled to announce the release of the groundbreaking HD-COAXINATOR™ series of high definition cameras and digital video recorders. This series allows for stress-free installs by utilizing the same coaxial cable, connectors, and power plugs as a traditional analog CCTV system. The HD-COAXINATOR™ series is priced like analog and delivers HD resolutions like IP, but without video latency or other difficulties found when dealing with IP based systems. Integrators can easily upgrade existing systems from analog to HD by simply replacing the old DVR and analog cameras with the HD-COAXINATOR™ cameras and CVR digital video recorder. Installers can quickly install new HD systems without the need for IP wiring or the complexity involved in setting up a network. The HD-CVI technology used in the SecurityTronix HD-COAXINATOR™ provides resolution, color depth, and image recognition that analog cameras are incapable of matching. Other more expensive HD over coax products on the market today have a limited transmission distance. The HD-COAXINATOR™ overcomes this limitation using new breakthrough technology to extend signal transmission distance, with virtually no deterioration in picture quality. SecurityTronix has researched and developed a quality, plug and play, cost effective HD solution that makes sense.

HD-COAXINATOR™ replaces analog and HD-SDI

Update your properties from analog to HD in just a few hours with SECURITYTRONIX™ HD-COAXINATOR™

Property with existing 12VDC analog CCTV system

All wiring is reused for both power and video

Install new HD-COAXINATOR cameras and CVR

The HD-CVI technology used in the SecurityTronix HD-COAXINATOR provides resolution, clarity and natural colors that traditional analog CCTV cameras are unable to match.

Competitor's cameras with HD-SDI technology can provide the same 720P & 1080P resolutions which COAXINATOR provides, however they suffer from significantly higher cost, limited cable runs and do not have the ability to send PTZ control data over the same coax cable used for video.

2MP Full HD 20x Ultra-High Speed PTZ Dome Camera

ST-HD-PTZ-2MP Features:

- HD Video Quality Over Coaxial Cable
- 20x optical zoom
- Max 20/30fps@1080P, 50/60fps@720P resolution
- DWDR, Day/Night(ICR), Ultra DNR, Auto iris, Auto focus
- Max 500°/s pan speed, 360° endless pan rotation
- Up to 300 presets, 5 auto scan, 8 tour, 5 pattern
- Built-in 2/1 alarm in/out
- Support intelligent 3D positioning with DH-SD protocol
- IP66 Rated housing, IK10
- 1 Year Warranty

\$599.00 ea.

FIT SERIES Stand Alone IP Network Video Recorders

Features:

- Up to 4/8 channel with 1080P realtime live view
- H.264/MJPEG dual codec decoding
- HDMI/VGA simultaneous video output
- All channel synchronous realtime playback, GRID interface
- ONVIF Version 2.3 conformance
- 3D intelligent positioning with PTZ cameras
- Supports (1) 2.5" SATA HDD up to 1TB, 2 USB2.0
- Multiple network monitoring: Web viewer, CMS(DSS/S PSS) & DMSS (Phone & Pad)
- P2P enabled, providing easy remote access with just a QR code enables a quick and secure remote connection to client devices, including PCs, smartphones, tablets
- Plug & play connectivity with Securitytronix Eye View Series IP Cameras
- Utilizes cloud connect for an effortless remote connection to various client devices
- Compatible with EVS (Eye View Smart) software packages
- 2 Year Warranty

EZ CONNECT SERIES Stand Alone IP Network Video Recorders With Built-In PoE On All Ports

Features:

- Tests HD-SDI, Analog & IP cameras
- 7 inch LCD screen display, capacitive touch screen, 1024 x 600 resolution, supports resolutions up to 1920 x 1080, 1080 x 720
- Displays ONVIF IP camera image, ONVIF PTZ controller
- Supports more than 40 customized IP camera protocols
- Supports video management software to view IP camera image
- Built-in WiFi to receive network image and data, Network bandwidth testing
- PoE 24W power supply to IP cameras, HDMI signal output, supports 1080p
- DC12V 2A power output for cameras, Led Lamp, easy to operate at night
- Removable micro SD card
- LCD screen with adjustable brightness/contrast/color saturation
- Automatically adapts and displays NTSC/PAL video formats, color bar generator
- Video record and playback (only for analog video test), Video signal level test
- Snapshot and save images as JPG files in the SD card (only for analog video test)
- PING testing, test IP cameras or network devices
- FTP Server, Static IP address, DHCP, simultaneously test different segments
- PEAK video signal level, SYNC signal level, COLOR BURST chroma level measurement
- IP address scan, quickly search the IP address for connected IP cameras and other network devices
- PoE voltage measurement, test the PoE switch's voltage to IP cameras, wireless AP device and other PD devices
- Device port flicker, easily find connected PoE switch port, the connected PoE port will flicker at special frequency
- PTZ address scan, search for PTZ camera ID
- Network cable and telephone cable testing, display the sequence of connections
- Supports RS232/RS485/RS422, rate 600 - 115200bps adjustable
- Multi-protocol, supports more than thirty PTZ protocols such as PELCO-P, PELCO-D, SAMSUNG etc.
- Audio input test, test audio signal from pickup devices
- Digital Multimeter, auto ranging DC/AC, voltage/current, resistance, continuity, diode and capacitance testing
- Lithium Ion Polymer Battery, 17 hours of normal use after charging for 7-8 hours
- 2 Year warranty

ST-NVR-EVS Series Software Features:

- Network Video Recording software for a remote or on-site computer
- 32 or 64 Channels of live viewing
- Live view built-in motion & video analytics
- 4 or 16 Channel playback
- Single or Multiple server remote client
- 16 or 128 Channels of remote live viewing
- 4 or 16 Channels of remote playback
- Fixed or Customized stream profile
- Supports mobile devices
- 1 or 10 Layer E-map support
- Email notification
- Digital watermarking
- ST-NVR-EVSPRO+ version features POS Integration, Counting application, PTZ control and more

**Works With
IP, HD-CVI & Analog**

Eye View Smart (EVS) PC Based Intelligent NVR Software With Embedded Video Analytics

The SecurityTronix ST-NVR-EVSPRO series is the latest PC based analytics software solution, known as Eye View Smart, or EVS. The EVS software is available in both the standard 32 camera version and the 64 camera EVS Plus version that showcases an expanded feature pack. The EVS software supports over 2,000 different IP camera models from more than 45 brands. Additional manufacturers and cameras are added on a regular basis to make EVS one of the most flexible NVR software applications available in the industry today. The standard EVS software is included with the purchase of any SecurityTronix PRO series IP camera.

The EVS suite includes mobile apps, map overlay, motion detection, event email notifications, and motion recording. The standard EVS software is field upgradable to the EVS Plus version. Users can have confidence that their surveillance system can evolve with their needs as the EVS Plus hosts additional advanced analytics such as foreign object placement, missing object notification, camera occlusion, and more.

The SecurityTronix EVS and EVS Plus software suites bring compelling value to the surveillance recording, analytics, and notification market. These all-in-one software suites are the perfect compliment to the SecurityTronix IP camera line. The SecurityTronix lab can customize complete and scalable systems using EVS software and several different hardware platforms to meet user needs.

Why Buy SecurityTronix Products?

SecurityTronix Recorders support P2P function!

What is P2P? (Peer to Peer)

P2P, or Peer to Peer, technology eliminates the need to forward ports inside of your router and makes connecting to your DVR/NVR as easy as scanning a QR Code on your mobile device. As long as your DVR/NVR is connected to the internet, it can be accessed from anywhere in the world using a mobile device or CMS software.

In traditional DVR systems, you need to forward ports and set up a DDNS account but this is no longer necessary. When you enable P2P on your DVR, it connects to a centralized server and registers its IP address in a reverse DVR-to-server style connection. Your mobile device or software then connects to the same centralized server and connects to your DVR directly so you can view and playback video.

SecurityTronix Models With P2P Capability:

ST-HD-CVR4/8/16CH

ST-HD-CVR4/8/16CH-V2

ST-HVR8704/08/16

ST-NVR4/8/16CH-EZ

ST-NVR4/8/16/32CH-I

ST-NVR4/8CH-F

SecurityTronix EVS (Eye View Smart) CMS (Central Management Software) with optional built in analytics available!

What is EVS CMS software?

EVS software allows user to connect, view, & manage security systems that are located in multiple sites! EVS also allows the user to configure settings, group camera displays and the standard software supports 32 cameras or upgrade to EVS PRO+ version supporting up to 64 cameras and providing additional analytics such as Signal loss, Object placement Object removal detection, Line counter used in retail stores, parking garages and more...

The EVS software can be used to remotely connect various SecurityTronix DVR, NVR, & CVR recorders & cameras and is not limited to specific brands. The EVS software supports over 2,000 different IP cameras and more than 45 brands. If you are looking for one solution to manage multiple sites and recorders with optional analytics then EVS is the solution for you. Pricing starts at \$29.00!

SecurityTronix provides 24/7, 365 days a year technical support! Securitytronix understands that you may need support outside of 9:00am – 5:00pm. Our technical staff is geared to support after hours.

**Record both analog and
IP cameras on the same unit**

Features:

- Record both analog and IP cameras on the same unit
- All HVR models now feature full D1 recording resolution on all BNC inputs
- All three models support up to two SATA hard drives (max 6TB) or one hard drive and one DVD burner
- Timeline playback interface provides an easy way to review events
- 120fps (4Ch Unit), 240fps (8Ch Unit), 480fps (16Ch Unit) Video and audio real-time recording & playback
- Supports five functions: real-time display, recording, playback, network online backup and data transmission
- Flexible playback mode, multi screen preview
- Full screen or multi-screen video output
- Compression: H.264 Video, G711A Audio
- Advanced network functions, supports IE browser, client visiting and real time operation
- ONVIF 2.0 Compatible
- Remote control, front panel, web or optical mouse operation
- Motion detection
- Linux operating system
- Supports mobile & 3G monitoring via Symbian, Windows Mobile, iPhone, Android and more
- USB
- On screen display
- TCP/IP, DDNS, PPPOE, CMS
- Pan - Tilt - Zoom control
- Hard drive not included
- Two year limited warranty

1,000 TVL IR Bullet Camera

ST-BT1000IR2812-G Features:

- 1/3" CCD Image sensor
- Horizontal resolution: 1,000 TVL
- 2.8 - 12.0mm Varifocal Lens
- 42 IR LEDs
- IR Range 130'
- 0.01 Lux Color, 0 Lux B&W
- On screen display
- Auto iris
- Grey IP66 housing
- 12VDC/400mA (power supply not included)
- 1 Year warranty

\$98.00 ea.

1,000 TVL IR Dome Camera

ST-D1000P-W Features:

- 1/3" CCD Image sensor
- Horizontal resolution: 1,000 TVL
- 3.6mm Fixed lens
- 4 Piece IR LED array
- IR Range 98'
- 0.01 Lux Color, 0 Lux B&W
- On screen display
- Auto iris
- White indoor plastic housing
- 12VDC/350mA (power supply not included)
- 1 Year warranty

SecurityTronix Vandalproof Miniature Pan-Tilt-Zoom Camera

ST-WD650PTZMINI-12X Features:

- 650 TV Lines Color, 700 TV Lines B&W
- Wide Dynamic Range
- 0.001 Lux Day Night Vision
- 1/3" Sony Super HAD II Color CCD Sensor
- 12X Optical zoom lens (5 - 60mm)
- Vandal Proof Housing
- Built-in auto gain control (AGC) circuit allows this camera to produce a high definition picture in low light conditions
- Auto focus
- Supports 16 Presets
- IP66 Weather Rating
- On Screen Display addressable
- 1 Year Warranty

Only 5.5" Wide

\$229.00 ea.

SecurityTronix Miniature Pan-Tilt-Zoom Camera With Infrared

ST-PTZMINI-IR10XTA Features:

- 650 TV Lines
- 0.001 Lux
- 1/3" Sony EFFIO-E CCD Sensor
- 10X Optical zoom lens (3.9 - 39mm)
- 130 Foot IR Range
- Metal Cast Housing
- Auto focus
- RS-485, PELCO-D and PELCO-P
- Supports 256 Presets
- Built In Temperature Control System
- Indoor Housing
- 1 Year Warranty

Only 5.5" Wide

\$292.00 ea.

ST-PTZMINI-IR10X Features:

- 1/3" Sony super HAD CCD Sensor, 650 TVL
- 10X Optical zoom, 5-50mm
- 0.01 Lux Color, 0 Lux B&W, 165' IR Distance
- Wide Dynamic Range
- On Screen Display
- Intelligent IR illumination & power consumption is variable
- Pan, Tilt and Zoom are all performed simultaneously
- 4 patterns - Each records 512 different PTZ instructions or roughly 600 seconds of PTZ path operation
- 4 Tour groups - The dwell time and position of 16 preset points per tour can be edited independently
- Built-in high precision real-time clock
- Heater engages below 32° F and fan engages above 104° F
- Ratio of illumination to ambient light can be adjusted
- Metal chassis with IP 66 environmental rating
- Built-in 6000V lighting and surge protection equipment
- IK06 Impact Rated Housing
- One year warranty

Only 5.75" Wide

ST-IP-BT2VF-PRO IP Bullet Camera, 2 Megapixel, Varifocal Lens

Features:

- Eight Input or Sixteen input units available
- 1080p/720p 30fps
- Audio in and out, Alarm in and out
- RS485 PTZ Control
- BNC, VGA & HDMI Video Outputs
- Supports Android & iPhone
- Supports 2 SATA Hard drives up to 4TB total
- H.264 video compression, G.711 audio decoding compression, Supports up to 1080p resolution decoding .
- Recording modes include manual, time, alarm and motion detection
- USB 2.0 high speed communication interface for connecting various backup devices; Standard Ethernet interface.
- Supports TCP / IP, UDP, RTP / RTSP, DHCP, PPPoE, DDNS, NTP etc.; also supports network real-time live view, recording, playback, control; built-in WEB Server, IE browser for direct access.
- Front panel control, remote control or mouse control with simple, intuitive graphical interface.

Network Video Recorder Clearance Offer!

Stand Alone Network Video Recorders

Features:

- Linux Embedded - eliminates the threat of PC crashing and virus attacks
- High throughput for megapixel camera recording
- Supports multi-stream configuration for remote live view bandwidth control
- Supports camera two-way audio
- Support mobile client for iPhone / iPad / Android
- Panorama 360° PTZ (ImmerVision and VIVOTEK fisheye)
- Generic dewarp (fisheye)
- Web-based configuration, live view, playback (Recommend on IE 8,9, 10, Mac Safari and Windows Chrome)
- RAID 0,1,5,10 for maximum capacity and data protection
- Supports HDD S.M.A.R.T self-test
- Supports camera snapshot
- Online GUI recording schedule
- Supports megapixel cameras and H.264 compression format
- Digital PTZ and multi-view
- Real-time digital output, Email alert and mobile push notifications
- Remote I/O solution and camera I/O integration
- Up to 64CH remote live view with multiple monitors
- Supports joysticks for easier camera control
- Playback with 5 types of intelligent event search
- Point of Sale (POS)
- E-map with indicator
- Digital watermarking
- Auto port-forwarding
- NTP server synchronization
- Supports 82 brands of IP cameras and 2000 models

The SecurityTronix ST-NVR Pro+ Series Embedded Digital Video Recorder is an excellent digital surveillance product which adopts H.264 video compression, hard disk recording, TCP/IP transmission, and a Linux based OS in addition to some of the more advanced technologies in the information technology industry. These units enable a stable, reliable and high picture quality while supporting synchronized video and audio recording, playback, and monitoring. This series also supports network based system control, as well as excellent network streaming capabilities.
