

CCTV CABLE-*.*

Economy RG-59 Video Cable With Attached Power Cable

Cable Type: **Series 59 Cable With 19 Gauge 2 Conductor Attached**

The SecurityTronix economy CCTV CABLE Series is perfect for camera installations that require an affordable RG-59 video cable with a solid copper center conductor and a copper clad braid. The attached copper clad 19 gauge, 2 conductor wire allows the user to conduct voltage necessary to power the camera without running a separate line.

This cable is sold on 1,000' and 500' lengths and is available with black or white PVC jacket. Contact our sales engineers today for more information.

Center Conductor

Material: Copper, 20 AWG
Diameter: 0.0315" (0.80mm)

Dielectric

Material: Foam polyethylene
Diameter: 0.14961" (3.80mm)

Shield

Material: Copper clad aluminum
Braid Coverage: 87%

Jacket

Material: Polyvinylchloride (PVC),
Color: Available in white or black
Diameter: 0.230" (5.85mm)

Attached 19-2

Conductors: 19 Gauge, stranded, copper clad aluminum, 2 conductors
7 x 0.01437" (0.365mm)
Individual Jackets: PE 0.06693" (1.70mm) 1 Red, 1 Black
Overall Jacket: PVC 0.17323" (4.4mm) Available in white or black

Electrical Characteristics:

Impedance: 75+/-3Ω
Capacitance: 17+/-3 pF/ft
Spark Test: 4,000VAC
Dielectric Strength: 3,000VAC
Temperature Rating: 140°F (60°C)

Ordering Information

CCTV CABLE ECO-1000-B	Black Jacket, 1,000' spool
CCTV CABLE ECO-1000W	White Jacket, 1,000' spool
CCTV CABLE ECO-500B	Black Jacket, 500' reel-box
CCTV CABLE ECO-500W	White Jacket, 500' reel-box
