- **Easy-to-use**
 - Effortless installation – As simple as connecting a DVD player
 - Intuitive GUI is easy to navigate and manage
 - Content management is straightforward & instinctive
- Dimensions: 3" x 2.25" x 0.5", 0.15 lbs.

Description:

The DataTronix Mini Digital Signage Player allows you to display user created presentations that are informative and entertaining. These simple plug-n-play devices are capable of presenting full-screen slideshows and videos on any HDMI or composite input monitor. The Mini Digital Signage Player displays media files from a USB storage device or SD card, and does not require internet connectivity. Simply load your image, audio, or video files onto a flash drive and connect it to the Mini Digital Signage Player. The size of your presentation is only limited by the storage space of your USB or SD device.

Customize your slideshow presentations with user defined durations of 1, 3, 5 or 10 seconds per slide. Background music can also be inserted and played during a slideshow. Further customization options include a variety of transitions between images (vertical and horizontal Persian blinds, mosaics, wipes and random transitions). The small-size unit can be discreetly installed behind a monitor by using double faced tape, cable ties, or Velcro®. All units come with a remote control for accessing menu commands. For the clearest HD viewing experience, you can connect to the unit using a CableTronix brand HDMI cable (not included). A composite video 3.5mm breakout adapter cable is included for SD deployments.

The Mini Digital Signage player is perfect for retail stores, boutiques, hotel lobbies, restaurant entrances, transportation sites, medical offices, educational institutions, fitness centers and much more.
