

DATA-TRONIX® DT-USBWP-DUAL-**A-WH USB Charging Wall Plates For AC Outlets

The USB Charging Solution

Features:

- Replaces existing outlet wall plate in seconds
- Charge two devices simultaneously
- Fast Charge devices which support Fast Charging
- Leaves both wall outlets free for household devices
- 15A and 20A Models now available
- Make any standard AC outlet USB compatible in seconds
- Fits over existing standard AC wall outlet
- No wiring & no batteries
- AC Outlet not included
- Single gang
- ETL Rated
- For residential grade outlets
- White finish

The Data-Tronix Dual USB Charger is incorporated into a sleek duplex wall plate which installs literally in seconds. Simply remove the old standard wall plate and replace it with the USB wall plate using a single screw. The new USB wall plate will make electrical connections with the outlet automatically. With 3100mA total power output, it has the power to charge virtually every phone and tablet on the market. 15 Amp and 20 Amp versions are now available.
