Introduction

The Geovision Network Video Recording (NVR) System Lite is a light-weight and an ultra-slim NVR system, which you can record video files directly to the internal hard drive. Exclusively designed for Geovision IP cameras for networking surveillance, the GV-NVR System Lite supports a plug and play function to connect up to 4 cameras automatically. The GV-NVR System Lite is an ideal NVR system for small business or retail stores.

Its six USB 2.0 ports enable it to connect with multiple peripheral devices, such as USB HDD, USB DVD player and etc. Its Gigabit Ethernet function enables high-speed Internet access for seamless Web browsing. Moreover, its VESA mounting solution allows the user to mount the ultra-slim unit on the back of a computer monitor.

A compact yet feature-rich solution, the GV-NVR System Lite is equipped with a variety of input and output terminals to provide flexible connection options. The built-in Gigabit Ethernet port enables connection to IP cameras, hubs and routers. Other input and output terminals include D-sub, speaker, microphone and six USB ports.
