- IP66 Rated Housing
- 2 Year Warranty

The ST-HD-BT3.6-1MP is a high-definition camera designed around a 1/3" Color 1 megapixel CMOS, 24 IR LEDs providing infrared capability up to 65 feet, and a 3.6mm lens. The ability to send HD video over coaxial cable makes the ST-HD-BT3.6-1MP a cost effective high-definition surveillance solution for any budget. The HD-COAXINATOR™ series utilizes the same coaxial cable, connectors, and power plugs as a traditional analog CCTV system. The series is priced like analog and delivers resolution like IP, but without video latency or other difficulties found when dealing with IP based systems. Integrators can easily upgrade existing systems from analog to HD by simply replacing the old DVR and analog cameras with HD-COAXINATOR™ cameras and CVR digital video recorder.
