

Coaxial Cable Camera Controller

Features:

- Controls select analog cameras over coaxial cable
- Easily inserted at DVR or at camera using BNC male to BNC female connection
- Controls camera using the cameras internal on screen display (OSD) software
- Compact design, rugged housing
- Convenient for setting up all cameras in a system at the DVR using the systems monitor

Description:

The Securitytronix ST- UTC is an "Up The Cable" controller for select models of SecurityTronix analog cameras. The ST-UTC is connected at the DVR between the Camera cable and the DVR input. Using the controller, the operator can open the camera's menu on-screen and make any necessary adjustments. The controller can then be disconnected and used for other cameras or left in place.

Currently Supported Cameras:
