# BT-HE-DASHBOARD
Digital Headend Controller

Features:

- For use with Blonder Tongue
  HDE-8C-QAM w/Opt 2,
  HDE-8C-QAM DIN w/Opt 2, AQT8-QAM/IP
  & AQT8-IP units
- Offers compact design for mounting ease
- Controls and monitors up to twenty (20)
  supported units simultaneously
- Single IP address and login per
  BT-HE-DASHBOARD unit

The **BT-HE-DASHBOARD** provides operators the ease and convenience of controlling multiple HDE-8CQAM w/Opt 2, HDE-8C-QAM DIN w/Opt 2, AQT8-QAM/IP, and AQT8-IP through a single IP address mapped to the headend(s). The "DASHBOARD" controls and monitors up to twenty (20) supported units and has the provision to remotely update firmware for each unit simultaneously. The compact surface mount unit can be installed horizontally or vertically to any flat surface, such as a wall, side of a rack/cabinet or in a headend rack shelf. It is powered with a supplied 12VDC external power supply.
