

# DT-HDMP-1 Digital Media Player

## EASY Content Creation EASY Integration

**Distribute important information over a building internal TV system, such as a nursing home, without dispatching people to individual rooms.**

It can be integrated into either an analog modulator system using the composite out, or a digital system using the HDMI output.

And if you don't want to give up an existing channel, you can use an additional modulator, such as our CT-SAW860 analog modulator or the DT-IPTV-QAM-ASI-2H digital modulator.

### Inexpensive

Content can be created and added easily using standard computer programs and a USB thumb drive, making it very easy to set up and maintain. It even includes a remote control!

### Easy Content Creation

Many other digital media players and digital signage players require specialty software and/or training to create content. Ours does not.

### Flexible Distribution

Our unit has both component (analog) and HDMI outputs. Many of the more expensive signage units only have HDMI which means they require a separate converter.

## The DT-HDMP-1 Series Mini Signage Player Offers Easy Content Creation

Design your content on your computer using any program that can create .jpg images such as PowerPoint and save it to a thumb drive or memory card. No specialty software or training required.

Insert the thumb drive into the DataTronix DT-HDMP-1 and leave it there.

Connect the component or HDMI output of the DT-HDMP-1 to a modulator input in your existing headend required.

Content is now available on all TVs connected to your existing TV distribution.

### Features:

- Plays full-screen presentations of videos up to 1080p, fixed images & audio files.
- Easy, plug-n-play design makes changing signage content effortless. No logins or internet connection necessary
- Small footprint fits perfectly behind most display screens
- Internet or secondary source connection is not required for use as the presentations reside locally
- There is no recurring monthly subscription fee for either unit
- **Easy-to-use**
  - Effortless installation – As simple as connecting a DVD player
  - Intuitive GUI is easy to navigate and manage
  - Content management is straightforward & instinctive
- Dimensions: 3" x 2.25" x 0.5", 0.15 lbs.

### Description:

The DataTronix Mini Digital Signage Player allows you to display user created presentations that are informative and entertaining. These simple plug-n-play devices are capable of presenting full-screen slideshows and videos on any HDMI or composite input monitor. The Mini Digital Signage Player displays media files from a USB storage device or SD card, and does not require internet connectivity. Simply load your image, audio, or video files onto a flash drive and connect it to the Mini Digital Signage Player. The size of your presentation is only limited by the storage space of your USB or SD device.

Customize your slideshow presentations with user defined durations of 1, 3, 5 or 10 seconds per slide. Background music can also be inserted and played during a slideshow. Further customization options include a variety of transitions between images (vertical and horizontal Persian blinds, mosaics, wipes and random transitions). The small-size unit can be discreetly installed behind a monitor by using double faced tape, cable ties, or Velcro®. All units come with a remote control for accessing menu commands. For the clearest HD viewing experience, you can connect to the unit using a CableTronix brand HDMI cable (not included). A composite video 3.5mm breakout adapter cable is included for SD deployments.

The Mini Digital Signage player is perfect for retail stores, boutiques, hotel lobbies, restaurant entrances, transportation sites, medical offices, educational institutions, fitness centers and much more.

### Technical File Compatibility Specifications:

**Video Up To 1080P**– MPEG1, MPEG2, MPEG4, H.264, WMV9/VC-1, MJPEG, FLV, MKV

**Video Up To 720P** RM/RMVB

**Image** - JPG, BMP, PNG, GIF

**Audio** - MP3, WMA, WAV, AAC, OGG, FLAC, APE, AC3, ATRA, DTS, RA

**Subtitle** - SSA, ASS, SUB, SRT, SMI, IDX+SUM
